LAND ACKNOWLEDGEMENT

We collectively acknowledge that the University of Minnesota Duluth is located on the traditional, ancestral, and contemporary lands of Indigenous people. The University resides on land that was cared for and called home by the Ojibwe people, before them the Dakota and Northern Cheyenne people, and other Native peoples from time immemorial. Ceded by the Ojibwe in an 1854 treaty, this land holds great historical, spiritual, and personal significance for its original stewards, the Native nations and peoples of this region. We recognize and continually support and advocate for the sovereignty of the Native nations in this territory and beyond. By offering this land acknowledgment, we affirm tribal sovereignty and will work to hold the University of Minnesota Duluth accountable to American Indian peoples and nations.

.....

WHAT DOES IT MEAN TO BE A BULLDOG?

For us, being a Bulldog means persistence grounded in curiosity and discovery. It's confidence that brings out our best, with a sense of adventure that fosters independence. And we respect the planet and each other in ways that sustain us all.

We're the mid-sized campus in the University of Minnesota system. Located in Duluth on the shores of Lake Superior, the area's beauty is matched only by its outdoor opportunities. We make the best of all that offers us academically and recreationally to build a lifetime of connection to this place.

This self-guided tour is available online. Scan the QR code with your camera app to follow along on your phone.

SELF-GUIDED TOUR TIPS

-  While we've included a lot of detail in this booklet, don't be afraid to ask someone on campus if you're having trouble reaching the next destination. Bulldogs are always ready to help out!
-  Look around for directions! Campus is full of helpful directional signage. Follow the directional arrows on the signs (hint: a circled star means you are entering the location listed).
-  When walking, look down. An indicator of a building change is most often marked by a change in the floor. If the floor looks different, you've most likely entered the next building.
-  Most of campus is accessible while staying entirely indoors. We take you outside on this tour, but our unique campus allows students to travel from their residence halls to their classrooms comfortably year-round.

.....

★ YOU ARE HERE

1. SOLON CAMPUS CENTER

Welcome to **Solon Campus Center (SCC)**. Nicknamed "The Wedge" because of its shape, SCC is home to the Office of Admissions, the Department of Math and Statistics, and a plethora of student service offices: Bulldog Resource Center (for information on Orientation, Veterans Services, Success Coaching), One Stop Student Services (for information regarding financial aid, registration, transcripts, etc.); Career Center, and the Veterans' Resource Center.

Head towards the front doors of SCC (hint: look for the clock) and take a left at the main hallway. Follow the hallway past Cina Hall, and the Tweed Museum of Art will be on your left.

2. TWEED MUSEUM OF ART

Offering free admission to all, the **Tweed Museum of Art (TMA)** has a global collection of more than ten thousand objects, organizes 6-8 special exhibitions a year, and hosts formal lectures and hands-on programs. You can also find art and design student work displayed in the gallery each week! Please note: the Tweed is closed on Mondays.

Enter the hallway directly across from TMA entrance to enter the Humanities building.

3. HUMANITIES

The **Humanities building (H)** is home to a number of liberal arts and fine arts departments, including Art and Design, English, World Languages and Cultures, and Music. If you take a moment to listen, you'll often hear faculty and students practicing

various instruments on the first floor. Additionally, the 100,000-Watt voice of UMD - The North 103.3 Radio - is housed in the basement and offers a variety of opportunities for student volunteers and interns.

Continue down the hallway and find the entrance to A.B. Anderson Hall on your right.

4. A.B. ANDERSON HALL

A.B. Anderson Hall (ABAH) is home to several of our College of Arts, Humanities, and Social Sciences departments. This hall was named in honor of Adolph Benoni Anderson

in 1973, in recognition of his work towards establishing a University of Minnesota campus in Duluth since the 1930's. This building is currently undergoing renovations.

Head back to Humanities and take a right at the hallway to make your way to Weber Music Hall (hint: look for the red floor).

5. WEBER MUSIC HALL

Designed by world-renowned architect Cesar Pelli, **Weber Music Hall (WMH)** is home to UMD's 125 student music majors and more than 1,200 students who participate in music courses each year. It also presents over 200 performances each year.

The intimate, 350-seat hall has a unique "sea shell-like" shape and sophisticated sound-isolating technology that can amplify sounds as low as 13dB (the noise level of your heartbeat).

Continue through WMH and enter the Sports & Health Center (hint: follow the brick hallway).

6. SPORTS & HEALTH CENTER

Over 90% of students participate in recreational sports and outdoor programs at UMD, taking advantage of the **Sports & Health Center (SpHC's)** many offerings. SpHC is home to the Recreational Sports Outdoor Program (RSOP) and Intercollegiate Athletics, and features an indoor ice rink/turf field, fitness center, indoor track, six-lane pool, two indoor climbing walls, gymnasium and group fitness classes. If you want to take your fitness or activity outdoors, you can rent all types of equipment at the RSOP Rental Center, such as canoes, bikes, ice skates, and more. Outside, Griggs Field/ Malosky Stadium is home to Bulldog football, soccer, track and field, and numerous intramural sports.

Romano gym will be to your right off of the main lobby & ticket booth. To view the Recreation Center, continue straight ahead and take a right at the end of the hallway. The indoor track and arena will be on your left and workout lobby at the end of the hallway. Return to the SPHC main lobby and take the doors outside to enter Ordean Court.

7. ORDEAN COURT

Ordean Court, named after Duluth Civic Leader, Albert L. Ordean, was the original front door to UMD and serves as our main entrance to the Marshall Performing Arts Center, the Weber Concert Hall, and the Tweed Museum of Art. Home to the 1965 sculpture by noted artist, Jacques Lipchitz, it honors Duluth's name sake, Daniel Greysolon, Sieur du Luth.

Cross Ordean Court and enter the Marshall Performing Arts Center doors on your right.

8. MARSHALL PERFORMING ARTS CENTER

Marshall Performing Arts Center (MPAC) is the heart of Theatre and Dance performance at UMD. Within the building, there is a 550-seat flexible thrust/proscenium theatre, as well as a black-box experimental theatre. Multiple studios provide designated space for actors, designers, and dancers, while fully equipped scenic, welding, and costume shops, in addition to state-of-the-art lighting consoles and digital and analog recording equipment allow student designers and technicians to explore their crafts in lab and production work.

Participation in theatre productions and backstage work is open to all UMD students, regardless of major, interests, or previous experience. The MPAC main stage also hosts multiple community events each year.

Turn left and walk through the MPAC lobby. Take the double doors in front of you to the main hallway and turn right towards the Education building. You'll find it on the left just after the "Campus Directory" bulletin board.

9. EDUCATION ENDAZHI-GIKINOO' AMAADING

The name of the **Education (EduE)** building is representative of the Ojibwe cultural tradition of teaching and learning. It means "a Place of Teaching and Learning Together." The building features classes for teaching education K-12 and an American Sign Language Lab. It is also home to the University Honors program. Did you know? Education was the first major offered at UMD and remains to this day one of the most celebrated and popular programs.

Turn around and exit the Education building the way you entered. When you enter the hallway, take a left and continue into the Engineering Building. Turn right where the hallway splits.

10. ENGINEERING BUILDING

The **Engineering (Engr)** building is home to the Swenson College of Science and Engineering Dean's Office as well as the Department of Chemical Engineering. A favorite stop

for campus tours, it boasts a delicious resource for learning chemical engineering concepts - a lab dedicated to creating chocolate.

Continue through Engineering until you reach the red brick lobby. Take a left to enter Voss Kovach Hall.

11. VOSS KOVACH HALL

Voss Kovach Hall (VKH) is home to the Department of Mechanical & Industrial Engineering. Students do hands-on research and learn how to use the equipment found in many industrial settings.

All of UMD's engineering programs are ABET accredited and consistently ranked as some of the best in the country.

Follow the hallway straight to enter Swenson Civil Engineering.

12. SWENSON CIVIL ENGINEERING

With a LEED Gold Certification, a grass roof, and wood repurposed from pickle barrels, the **Swenson Civil Engineering (SCiv)** building is a fine home for those studying to address the regional and national needs for qualified Civil Engineers. The program focuses specifically

on Environmental and Water Resources, Geotechnical, Structural, and Transportation engineering. Can you find the time capsule located in the wall of taconite?

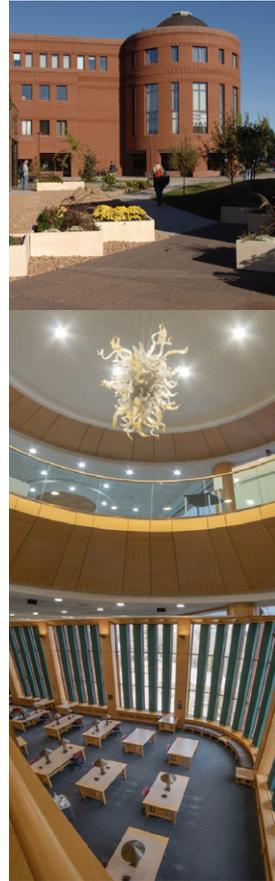

Follow the hallway around Swenson Civil Engineering until you get back to the Engineering building. Turn right and continue down the ramp towards the Kathryn A. Martin Library. Take the blue stairway or elevator up one floor to reach the entrance.

13. KATHRYN A. MARTIN LIBRARY

As you enter the library, you will notice the “Clear and Silver Chandelier” hanging in the center of a circle. This one of a kind, 350-lb piece of art was designed by Dale Chihuly a world renowned artist and glassblower. Stand directly under the chandelier and say something (try “Bulldogs”). Now you know why it’s called the Echo Circle!

Named after UMD’s 11th chancellor (and the first female chancellor in the U of M system), the **Kathryn A. Martin Library (KAML)** is a vibrant facility that receives 500,000 visits annually - it is truly a space for everyone.

Students have access to rich online collections and physical collections, as well as materials from all five U of M campuses, and national and international libraries through interlibrary loan. In our Tutoring Center, Writers’ Workshop, Securian Math Learning Lab, and Media Hub students will find the tools and guidance needed to be successful in their academic careers. Students also have 24/7 access to research support and can connect by chat, email, in-person, or by appointment with a librarian who specializes in the discipline of their class or major. Additionally, students will find many resources in our Archives & Special Collections which include both university and local history. The library is a multipurpose space serving as a place for group study and collaboration, quiet study, events, lectures, and programming.

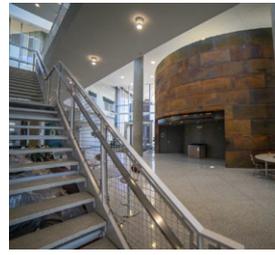

Exit the library and turn right. Follow the hallway until you see the entrance for the Labovitz School of Business & Economics on your right. Continue up the stairs.

14. LABOVITZ SCHOOL OF BUSINESS AND ECONOMICS

Housed in the first Gold LEED certified building in the entire U of M system, the **Labovitz School of Business & Economics (LSBE)** remains “ahead of the market” in all aspects by focusing on innovative programming and experiential learning. Home to three undergraduate degree

programs (Bachelor of Accounting, Bachelor of Business Administration, and Bachelor of Arts) and 15 majors, LSBE offers several unique programs, including a single-major Marketing and Graphic Design option, and a Consumer Insights and Analytics major with strong industry tie-in. LSBE programs are accredited by AACSB-International, the premier accrediting organization for business schools worldwide.

Return to main hallway (the way you entered LSBE) and continue right. Montague Hall will be the next hallway on your left.

15. MONTAGUE HALL

Montague Hall (MonH) is home to the College of Arts, Humanities, and Social Sciences (CAHSS) and Swenson College of Science and Engineering (SCSE) Advising Offices, and houses classrooms for two of the fine arts based graphic design programs.

Montague Hall was originally called the Home Economics Building and General Classroom and was renamed March 12, 1982, in honor of William K. Montague, who served as a University of Minnesota Regent from 1963-1969.

Return to the main concourse and take a left. Bohannon Hall will be the next hallway on your left, just past the lockers.

16. BOHANNON HALL

Bohannon Hall (BohH) is home to the College of Education and Human Service Professions (CEHSP) Advising Office, the Department of Psychology, and the Department of Social Work. The English Language Cultural Institute (ELCI) also provides services from this building. Additionally, Bohannon includes many classrooms, including the second largest lecture hall on campus, and a large student gathering space called the Ven Den. Originally a "vending room", the Ven Den was remodeled in 2015, and the new design was created by a UMD Theatre student!

Take the stairs down one floor to visit the Ven Den. Return to the main hallway and head left to enter Kirby Plaza.

17. KIRBY PLAZA

Kirby Plaza (KPlz) is a focal point of everyday resources for students.

1st floor of KPlz has the Northern Shores Coffee Shop, which offers a large variety of organic, fair trade coffee drinks and an assortment of snacks. Also included is the

Print Shop, Huntington Bank, International Programs and Services, and Information Technology Systems and Services (ITSS), which provides technology services and technical support for students.

2nd floor of KPlz features the street-level UMD store, which focuses on UMD apparel, convenience items, household needs, and art supplies. The store is right next to the Kirby Bus Hub. All UMD students have free access to the Duluth Transit System when they show their student ID. Also on the 2nd floor is the Plaza Food Court and the UMD Children's Place, which provides care to children of students, faculty, and staff.

3rd floor KPlz is home to the American Indian Learning Resource Center (AILRC). Their mission is to increase the recruitment and retention of American Indian and Alaskan Native students, while promoting a more culturally diverse campus environment. Working in conjunction with UMD staff, the AILRC provides supportive services to empower and aid in the success of our students and to enhance their educational experience.

Return to the 1st floor (outside of the Northern Shores Coffee Shop). Follow the hallway directly across from the stairs to enter Cina Hall (hint: look for the orange wall).

18. CINA HALL

Pronounced [Chee-nah], the recently remodeled **Cina Hall (CinaH)** is home to many College of Arts, Humanities, and Social Sciences departments, including the Department of American Indian Studies. The floral pattern design on the first floor is inspired by traditional Ojibwe & Anishinaabe floral beadwork designs. The design reminds visitors that American Indian programs and peoples are a significant part of UMD. In addition, expropriated American Indian lands formed the financial foundation for the University of Minnesota system. Cina Hall is also home to a darkroom and photography studio as well as a variety of Centers such as the Alworth Institute for International Studies, which aims to promote knowledge and understanding of international and global issues among students, staff and the community served by UMD.

Return to KPlz and head left down the hallway towards the Kirby Student Center.

19. KIRBY STUDENT CENTER

1st floor of Kirby Student Center (KSC) is home to the Kirby Student Lounge, and is where many students gather to relax, talk, or study. 1st floor also includes the Welcome

Desk, as well as the offices of many student organizations, from UMD Student Association to Greek Life.

2nd floor of KSC is where UMD's Multicultural Center (MC) is located. The MC includes the Office of Diversity and Inclusion and Office of Disability Resources. In addition to being a safe and open space for all students, the MC supports programs that focus on diversity and equity and promote an inclusive community. It houses various student organizations that any student can be a member of.

3rd floor of KSC is the location of the Rafters, Ballroom, and several meeting rooms. Some of Kirby Program Board's most popular programs take place here, including open mic night, grocery bingo, and craft nights. Programs take place in person and virtually.

From the 3rd floor, head towards the skyway (past the "Campus Directory" bulletin board) and continue straight. The Superior Dining Center will be on your left.

20. SUPERIOR DINING CENTER

The **Superior Dining Center (SDC)** serves three meals a day, five days a week, and brunch and dinner on the weekends. Students living on campus can choose from multiple meal plans for this "all you care to eat" center. The SDC is very involved in the campus green movement, and they partner with the UMD Farm to bring in fresh, seasonal produce grown by UMD students.

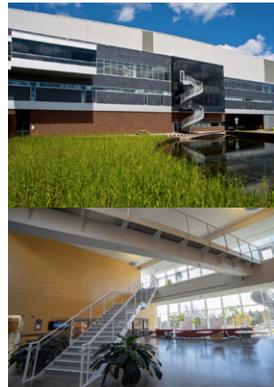

Continue down the hallway outside of SDC towards housing. Once you reach the split take the stairs up to the exterior doors. Exit the building and follow the asphalt left towards the Swenson Science Building. When the asphalt path turns right, turn left and take the sidewalk to enter Swenson Science Building. Continue straight down the hallway.

21. SWENSON SCIENCE BUILDING

The **Swenson Science Building (SSB)** is one of several architectural marvels here on campus. It's also home to several majors that reside within the Swenson College of Science and Engineering. The spiral staircase casts the shadow of a double helix, and Swenson is built so that, from the outside, the building resembles a ship coming into the harbor. It's also another favorite place students study and gather on campus. Additionally, the nearby pond (which is home to a family of ducks) is used for research and is an integral part of the stormwater handling system.

Continue through SSB via the main hallway (making your way past the lobby). Follow the hallway (through the skyway) until you reach the red tiled stairway. Descend two flights and take a right to enter Marshall W. Alworth Hall.

22. MARSHALL W. ALWORTH HALL

Marshall W. Alworth Hall (MWAH) is home to two STEM based departments: the Department of Electrical Engineering, whose students are responsible for designing and setting up the solar panels on top of UMD's Malosky Stadium; and the Department of Physics and

Astronomy, which is involved in research across the region including involvement in UMD's Undergraduate Research Opportunities Program (UROP). MWAH connects to the Marshall W. Alworth Planetarium. The planetarium currently offers sky shows virtually and in-person.

Follow your original path back to exit MWAH and continue straight to enter the Life Science building.

23. LIFE SCIENCE

Home to the only Doctor of Pharmacy (Pharm.D.) program in the state, the College of Pharmacy occupies the 1st and 2nd floors of the Life Science building. This building also contains UMD's two greenhouses which are utilized for a variety of classes and contain a large collection of plants from around the world. **Life Science (LSci)** was renovated in 2006-07, and now proudly carries a LEED Silver Certification.

Continue down the main hallway towards Heller Hall.

24. HELLER HALL

Home to the Department of Earth & Environmental Sciences and the Department of Computer Science, **Heller Hall (HH)** is filled with interesting displays and maps. The floor maps are 3-dimensional and can be viewed with special glasses from the Welcome Desk in the Kirby Student Center.

Head back towards Life Science (the way you entered Heller Hall) and turn left to take the hallway directly across from the elevator into the Chemistry building (hint: if you reenter Life Science, you've gone too far).

25. CHEMISTRY

The **Chemistry (Chem)** building is currently being used as a general classroom building while it undergoes renovations in some areas. It holds our largest lecture hall, Kobilka Lecture Hall -

named for Brian Kobilka. Dr. Kobilka won a Nobel Prize in 2012 for his research on G-protein-coupled receptors. Can you find where Dr. Kobilka sat as a student in this hall? (Hint: look for the red chair).

Continue down the hallway (past Kobilka Lecture Hall) and take a right when you reach the red tiled floor to enter the School of Medicine.

26. SCHOOL OF MEDICINE

Founded in 1972, the Duluth Campus is a regional campus of the University of Minnesota Medical School with a specific mission to train students interested in practicing family medicine in rural Minnesota or serving American Indian/Alaska Native communities and is second in the nation in graduating American Indian physicians. The **School of Medicine (SMed)** is also home to the Center of American Indian and Minority Health (CAIMH). CAIMH provides resources and activities for Native American students spanning K–12, college/pre-med, and medical school, and access to opportunities ranging from the Health Science Academy to the Native Americans into Medicine program, and more.

Follow the original path back to where you entered the School of Medicine. The hallway to your final tour stop is immediately on your right (just before the ramp). Walk past the red elevator to enter the skyway to Heikkila Chemistry & Advanced Materials Sciences building.

27. HEIKKILA CHEMISTRY & ADVANCED MATERIALS SCIENCE BUILDING

UMD's newest building, **Heikkila Chemistry & Advanced Materials Science (HCAMS)**, provides students and researchers with essential and cutting-edge lab space and is home to the Advanced Materials Center. The building has many features (like a solar panel array on the roof) that help make it more energy efficient and sustainable. Students across a variety of disciplines take advantage of the space which is designed to encourage collaboration and mentoring with its glass walls and multiple meeting rooms.

You've reached the last stop on the self-guided tour! Feel free to travel back to your vehicle (Gold Lot A and Maroon Lot B are on either side of HCAMS), or continue your tour at your own leisure. UMD has many outdoor paths and sidewalks to explore.

OTHER NOTABLE CAMPUS LOCATIONS:

CHESTER PARK BUILDING

UMD purchased a nearby school building in 2006, which has been remodeled to host several programs, including the Department of Communication Sciences and Disorders, the Robert F. Pierce Speech-Language Hearing Clinic, and the Fine Arts Academy.

HEALTH SERVICES

Located near the on-campus housing facilities, **Health Services (HS)** is a nationally accredited family practice clinic that provides complete outpatient medical services. HS has licensed psychologists and social workers to guide students' emotional and intellectual development and has an active education department focused on the unique needs of college students.

WILLIAM R. BAGLEY NATURE AREA AND BAGLEY OUTDOOR CLASSROOM

Immediately adjacent to campus, the Nature Area is a 13-acre tract of land which includes 2 miles of nature trails, an observation deck, and flora of unusual diversity. It also features an on-campus campground, where students and community members can tent-camp in one of six rustic sites.

The Outdoor Classroom - with a Platinum LEED certification - is a 1,400 sq. foot building that boasts a roof-top vegetable garden, composting toilets, an outdoor fireplace, and solar panels. The building actually generates more energy than it uses!

HOUSING AND RESIDENCE LIFE

A variety of furnished housing is available at UMD to suit differing student needs and lifestyles. Approximately 1850 students live in our residence halls and 1100 students live in our on campus apartments. First year students are not required to live on campus but about 91% of them do.

We provide our students with free laundry facilities, in room basic cable & wireless internet, a refrigerator, and room furniture. Students must provide their own bed linens and laundry detergent.

For a 360 degree tour of our rooms, visit us at housing.d.umn.edu under Housing Options.

DARLAND ADMINISTRATION BUILDING

Darland Administration Building (DAdB) is home to a variety of departments and offices such as our Air Force ROTC program and the Office of Alumni Relations. If you are an alumni, stop by their office in DAdB 104 for a welcome back gift!
